The Office of the Commonwealth Director of Public Prosecutions (CDPP) is responsible for delivering an effective, ethical and independent prosecution service to the people of Australia.

The CDPP conducts some of Australia's largest and most complex criminal prosecutions. We prosecute offences relating to, amongst other things, large-scale and crossborder organised crime, serious drug offences, criminal cartels, foreign bribery, child exploitation, human trafficking, slavery and terrorism offences. We work to support our partner agencies in an increasingly dynamic and challenging law enforcement and regulatory operating environment. The prosecutions we undertake often involve multiple agencies, numerous defendants or victims, and evidence gathered from overseas. Our prosecutions are also becoming more resource intensive, especially as data volumes rise.

We received 2,192 referrals from 50 partner agencies during the reporting period, representing 6,754 alleged breaches of 106 Acts and Regulations. As at 30 June 2023, more than half the matters we had on hand were highly complex.

We recognise the importance of early and targeted engagement with our partners to provide specialised legal advice on complex criminal investigations. A key focus over the last year has been to improve the quality and effectiveness of the process we have in place to receive and manage digital briefs of evidence. Close and ongoing collaboration with our partners throughout the lifecycle of a prosecution is critical to any successful outcome.

In March 2023 we completed the trial phase of 5 of 17 related prosecutions arising out of Operation Elbrus, a joint Australian Federal Police (AFP) and Australian Taxation Office (ATO) investigation also known as the Plutus Payroll fraud. Our prosecutors worked closely with investigators from the outset of this matter as a brief of evidence containing hundreds of thousands of documents was prepared and submitted for our consideration. All 5 defendants were found guilty of tax and money laundering conspiracies involving a loss to the Commonwealth of over \$105 million. This jury trial took 11 months to complete and required our prosecutors to electronically adduce more than 28,000 pages of documentary evidence and summaries.

Child exploitation matters represent a growing proportion of the CDPP's workload. These matters make up one fifth of current active prosecutions. The breadth of our work also continues to expand with prosecutions now underway for foreign interference offences and war crimes arising from investigations conducted by the Office of the Special Investigator (OSI).

Notwithstanding these challenges, we continued to maintain a high overall conviction rate of 97%. We also improved our conviction rate for defended matters with a result of 65%. This year the CDPP has once again met its target of 100% compliance in addressing the terms of the test for prosecution in the Prosecution Policy of the Commonwealth. These results reflect the commitment, dedication and hard work of our legal professionals and enabling services team. Our business modernisation program, *Transforming your CDPP*, aims to make sure we can continue to deliver high quality prosecution services now and in the future.

This year the program delivered an enhancement of the Referrals Gateway and Evidence Management Solution, as well as further development of our evidence presentation and management platforms. The program is designed to optimise the value of our specialised legal skills by modernising our evidence management systems and innovating with technology.

The current challenges posed by a competitive legal recruitment and retention environment, including levels of remuneration, has significantly impacted the CDPP's ability to attract and retain legal staff. Our Workforce Plan 2022–26 provides a robust framework for attracting and retaining talent and building and enhancing capability. Supporting our workforce plan is the newly established *Legal Learning and Professional Development Program* which aims to deliver more effective legal induction, targeted ongoing training and technical skills enhancement. This program will be critical in building and retaining the specialised legal skills we need for the future.

The CDPP is committed to embedding an organisational culture of continual learning and skills development that strengthens capability and reflects our commitment to invest in our people. We continue to remain focussed on staff wellbeing. Recognising the challenging environment in which we operate, we aim to make sure that our wellbeing program remains contemporary and fit-for-purpose through regular reviews and updates. Supporting our staff as they work with confronting materials and traumatised victims remains a key priority for our agency.

It has been a privilege to act as the Commonwealth Director of Public Prosecutions during the last 12 months. Our dedicated staff are committed to serving the community by providing an independent prosecution service that contributes to a fair, safe and just Australia, where Commonwealth laws are respected, offenders are brought to justice and potential offenders are deterred.

# Part 1: About the CDPP

# Purpose

As outlined in the Corporate Plan 2022–26 and the Portfolio Budget Statements, the CDPP's purpose is to contribute to a fair, safe and just society by delivering an effective independent prosecution service in accordance with the *Prosecution Policy of the Commonwealth*.

The CDPP's strategic framework is based on 3 themes, which focus and guide effort and underpin how priorities are set, enabling achievement of the purpose and delivery of outcomes:

Service: to provide an efficient and effective prosecution service.

Partners: to effectively engage with partner agencies and stakeholders.

People: to invest in our people.

# Entity overview

The CDPP was established under the *Director of Public Prosecutions Act 1983* (the DPP Act) and began operations on 5 March 1984. The CDPP operates as an independent agency within the Attorney-General's portfolio and is led by the Director, who is appointed by the Governor-General for a term of up to 7 years.

The CDPP plays a critical role in our criminal justice system by prosecuting crimes against Commonwealth laws, from online child exploitation through to counter-terrorism and war crimes. It works to build public confidence in the Australian justice system, where the laws of the Commonwealth are respected, offenders are brought to justice and potential offenders are deterred.

The matters the CDPP prosecutes are diverse and complex, reflecting the evolving and expanding Commonwealth criminal law enforcement and regulatory environment in Australia.

# **Responsible Minister**

The Attorney-General, the Hon Mark Dreyfus KC MP, was the CDPP's responsible Minister for the reporting period.

## Directions

The Attorney-General has power under section 8 of the DPP Act to issue directions or guidelines to the Director. Directions or guidelines must be in writing and tabled in Parliament, and there must be prior consultation between the Attorney-General and the Director.

No section 8 directions were issued during the reporting period.

# **Director of Public Prosecutions**

The Director's powers and functions, as set out in the DPP Act, include to institute and carry on prosecutions on indictment for indictable offences against the laws of the Commonwealth and to institute and carry on proceedings for the summary conviction of persons in respect of offences against the laws of the Commonwealth.

In addition, the Director has a range of other powers and functions including to:

- discontinue a prosecution
- take over a prosecution instigated by another person
- grant an indemnity
- consent to proceedings
- provide legal advice to Commonwealth investigators
- apply for superannuation forfeiture orders under Commonwealth law.

As the CDPP's accountable authority, the Director also has a range of administrative responsibilities relating to governance, business operations and outcomes.

Reported powers and functions exercised by the Director, or their delegate, during 2022–23 are set out in Appendix 5 – Exercise of the Director's statutory functions and powers.

## **Accountable Authority**

Sarah McNaughton SC served as Director of the CDPP from 16 May 2016 to 2 September 2022. Ms McNaughton was appointed as a judge of the Supreme Court of NSW in October 2022.

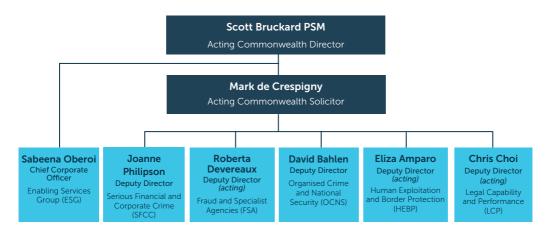

On 3 September 2022, Scott Bruckard PSM commenced as Acting Director pursuant to an existing instrument which provided for acting arrangements.

On 4 October 2022, the Attorney-General signed a new instrument appointing Mr Bruckard as Acting Director. Mr Bruckard continued as Acting Director throughout the remainder of the reporting period.

## Structure

The Director is supported by the Commonwealth Solicitor for Public Prosecutions (CSPP) to meet his or her statutory obligations. The CSPP is a senior executive service position under the *Public Service Act 1999*. Deputy Directors, also known as Practice Group Leaders, and the Chief Corporate Officer oversee legal and enabling services functions respectively. Each Deputy Director reports to the CSPP while the Chief Corporate Officer reports to the Director.

### Figure 1: CDPP organisational structure as at 30 June 2023

## **A National Practice**

The CDPP prosecutes in the courts of every Australian state and territory, as well as the Federal Court of Australia. It has offices in Adelaide, Brisbane, Cairns, Canberra, Darwin, Hobart, Melbourne, Perth, Sydney and Townsville.

To most effectively manage the broad range of crime types prosecuted by the Commonwealth, the CDPP operates under a national practice model with 4 Legal Practice Groups and a Legal Capability and Performance Group, each led by a Deputy Director.

While the CDPP's 4 Legal Practice Groups are organised by broadly compatible crime types, each is responsible for the prosecution of offences that are serious in nature and require a high level of specialisation. The Legal Capability and Performance Group works to build capability and improve performance across the legal practice and is also responsible for the CDPP's Witness Assistance Service.

The Enabling Services Group gives the practice timely, quality advice and services, while delivering modern business solutions and systems to equip lawyers with tools to conduct prosecutions effectively and efficiently. It is also responsible for ensuring CDPP meets its obligations and requirements under the *Public Governance, Performance and Accountability Act 2013* and related policies and frameworks.

The national practice group model enables the CDPP to harness the expertise of our staff and respond to the changing nature and complexity of criminal activity, while delivering a cohesive federal prosecution service. A summary of the work undertaken by each practice group is provided at Table 1. Further details are available on the CDPP's website.

## Table 1: CDPP group functions as at 30 June 2023

## Working with partners

The CDPP serves the public interest by maintaining effective partnerships with enforcement and compliance agencies, while ensuring prosecutorial decisions are made independently of those responsible for the investigation of federal offences.

The CDPP has no investigative function and can only prosecute where there has been a criminal investigation. Consistent with previous years, in 2022–23 briefs of evidence were received from 50 partner agencies, including state and territory police.

A range of services are provided by the CDPP to ensure the effective delivery of prosecutions. These services cover various aspects of the criminal prosecution process, from pre-brief advice to brief assessment, specialist resources and liaison activity.

We continue to refine and improve our services, collaborating closely with our partners to build capability, drive improvements in the prosecution process, and support our partners to meet their enforcement and compliance objectives.

Further information on prosecution services is available on the CDPP's website.

## **Victim and Witness Support**

The CDPP treats victims of crime with courtesy, compassion, cultural sensitivity and respect for their dignity and entitlements.

The Witness Assistance Service (WAS) is a national service provided by qualified social workers located in our Sydney and Melbourne offices. WAS staff provide a range of information and support services to victims of crime including updates on the progress of a prosecution, general information about the prosecution process, court tours, referrals to support services, support at court and during conferences with legal staff, and information concerning victim impact statements and reparation orders. The WAS delivers these services in accordance with the *Prosecution Policy of the Commonwealth* and *Victims of Crime Policy*. As at 30 June 2023, the service consisted of 6 full-time equivalent staff.

The WAS referral guidelines require that the most vulnerable victims of crime, including all identifiable child victims, and victims of slavery, sexual servitude and forced marriage, be referred to the WAS within 21 days of CDPP receiving a brief of evidence. The number of accepted WAS referrals has remained steady for the last 3 financial years. During 2022–23, the WAS accepted 589 referrals which compares to 599 in 2021–22 and 493 in 2020–21. The lower figure in 2020–21 potentially reflects the impact of COVID-19 on court processes.

In 2022–23, a total of 214 (approximately 36%) of all new victims/witnesses referred were children.

### Table 2: Witness Assistance Service Referrals 2022–23

Offence type	Number of matters	Victims / witnesses*
Online child sexual exploitation	73	453
Other child sex offences	4	9
Work health and safety	4	32
Use a carriage service to menace, harass, cause offence, threaten to kill	4	14
Human trafficking (inc slavery offences)	4	10
Other	22	71
Total	111	589*

Note: \*This figure includes parents and caregivers of child victims, including 143 victims/witnesses involved in 9 existing matters referred to the WAS in previous years.

## **Business modernisation**

*Transforming your CDPP* was launched in 2021 with a vision to achieve a highly efficient, effective and end-to-end digital prosecution service. Now, halfway through the planned modernisation of our systems, services and support, we are seeing tangible benefits.

Covering the gamut of our business modernisation from technology, business processes and capability, *Transforming your CDPP* was strengthened in 2022–23 with funding for our Evidence Management Solution (EMS). We have approached the EMS with a holistic system, service and support model, assisting our prosecutors with evidence management throughout the prosecution lifecycle. We intend to use the learnings from this approach to ensure future systems improvements are delivered with a suite of support, process enhancements and resources.

During the reporting period the CDPP successfully conducted a pilot of our eTrial Solution in the District Court of NSW. Feedback from the pilot and interest from other jurisdictions is informing the maturation of the solution including the development of an eTrial framework to share more widely.

In line with the increasing complexity and volume of evidence, we are also building and testing a service offering to replace printed evidence with shared evidence on electronic notepads, or Evidence e-Books.

We have progressed enhancements to our Referrals Gateway, which was a showcase project for the partnership between ESG and our legal practice. Co-designed improvements now include:

- improved integration with our internal case management system shrinking what was once a labour intensive step
- increased size of files our referring agencies can upload
- improved guides so people can effectively use the system and associated processes.

## Contributing to law reform

With responsibility for the conduct of prosecutions against the laws of the Commonwealth in all Australian jurisdictions, the CDPP is in a unique position to provide feedback to policy formulators and law-makers about the operation of Commonwealth criminal law from our practical experience working with these laws in matters before the courts. The CDPP aims to support policy agencies to develop and deliver laws and policies which are more effective in achieving justice outcomes.

The CDPP's assistance includes providing input on how proposed offences might operate in practice and highlighting issues that may arise during a potential prosecution.

## International engagement

In recognition of the ever-changing and global nature of crime, the CDPP actively participates in a range of international forums each year to engage, share knowledge and learn from international counterparts.

In June 2023 the Acting Director attended the Heads of Prosecuting Agencies Conference in Montreal, Canada and delivered a joint presentation on prosecutor wellness and vicarious trauma. The conference provided opportunities for useful formal and informal discussions with Directors of Public Prosecutions from other common law jurisdictions that are facing similar issues to the CDPP.

In November 2022 the CDPP presented on Australian judicial and financial approaches in the fight against drug trafficking to the International Symposium on the Fight Against Drug Trafficking in the Pacific Zone. Law enforcement officials gathered in Papeete, Tahiti, to share approaches to policing and prosecuting transnational drug trafficking and form connections of mutual benefit.

In 2022–23 the CDPP also attended:

- The fourth Pacific Islands Law Officers Network Cybercrime Workshop titled 'Combatting Cybercrime: Trends and Tools in a Changing World' in Nadi, Fiji.
- The Roundtable on Addressing Vulnerabilities to Racially or Ethnically Motivated Violent Extremism/Extreme Right-Wing Terrorism Radicalisation in London, UK.
- The United Nations Office of Drugs and Crime Mock Trial on the International Convention for the Suppression of Acts of Nuclear Terrorism in Vienna, Austria.

# Part 2: Annual performance statements

# Statement of preparation

Commonwealth Director of Public Prosecutions

#### 28 September 2023

As the accountable authority of the Office of the Commonwealth Director of Public Prosecutions (CDPP), I present the 2022–23 annual performance statements of the CDPP as required under paragraph 39(1)(a) of the *Public Governance, Performance and Accountability Act 2013* (the PGPA Act).

In my opinion, the annual performance statements accurately present the entity's performance in the reporting period and comply with subsection 39(2) of the PGPA Act (section 16F of the PGPA Rule).

hukard

Scott Bruckard PSM Acting Commonwealth Director of Public Prosecutions

# Performance framework

The CDPP's performance is managed through careful planning, monitoring and measurement of key performance targets. These targets provide an overall assessment of the CDPP's achievement of its purpose through 2 key activities that describe its functions and align with its strategic themes of service, partners and people:

- Key Activity 1 Prosecute with Integrity.
- Key Activity 2 Work in Partnership.

The CDPP continues to review performance information to ensure it is fit-for-purpose and to facilitate a 'clear read' across the portfolio budget statements, corporate plan and annual report, including across reporting cycles.

The CDPP's performance against its targets for 2022–23 is detailed under *Results* and further context is provided under *Operating Environment*.

# Results

The processes or methodologies the CDPP used to determine the 2022–23 performance results are outlined in the CDPP Corporate Plan 2022–26. Additional information has been included in this report where necessary to provide further context for the results.

Performance under Key Activity 1 is measured against 3 annual targets and under Key Activity 2 through a biennial survey. These measures allow the CDPP to assess how well it delivers an effective independent prosecution service.

The 2022–23 performance results are mostly consistent with previous years, as summarised in the following table.

Кеу	Performance measure	Target -	Results		
activity	Performance measure		2022–23	2021–22	2020–21
1	Compliance in addressing the terms of the test for prosecution in the <i>Prosecution Policy of the Commonwealth</i> .	100%	100%	100%	100%
1	Prosecutions resulting in a finding of guilt (total matters).	90%	97%	98%	99%
1	Prosecutions resulting in a finding of guilt (defended matters).	70%	65%	56%	72%
2	Partner agency satisfaction with CDPP service delivery.	90%	n/a	86%	n/a

### Table 3: Summary of performance results

Note: Targets have remained consistent across the relevant reporting periods.

# Performance measure 1.1 – Prosecution Policy Compliance

Measure	Target	Result
Compliance in addressing the terms of the test for prosecution in the <i>Prosecution Policy of the Commonwealth</i> , namely the existence of a <i>prima facie</i> case, reasonable prospects of conviction and that prosecution is required in the public interest, when deciding to commence or continue a prosecution.	100%	100% Achieved

This performance measure provides assurance that the prosecution test in the *Prosecution Policy of the Commonwealth* has been addressed. The test is integral to all cases considered and prosecuted by the CDPP.

As outlined in the CDPP Corporate Plan 2022–26, compliance is measured throughout the prosecution process. Certification that the test for prosecution has been applied occurs by way of a Prosecution Policy Declaration (PPD) which records information about the relevant decision and refers to evidence of the application of the prosecution policy. PPDs may be generated at a number of different decision points depending on the nature of the case and the course it takes. Key legal decision-making tasks cannot be finalised in the CDPP's case management database until a PPD is completed, providing assurance the test in the *Prosecution Policy of the Commonwealth* has been met.

Decisions to discontinue or not to commence proceedings under the *Prosecution Policy of the Commonwealth* are collated and reviewed with the aim of identifying any systemic issues that require addressing by the CDPP or by partner agencies.

The CDPP has consistently met the target for 100% compliance with the *Prosecution Policy* of the Commonwealth since implementing this performance measure in 2015, demonstrating continued contribution and commitment to a fair, safe and just society. The CDPP once again met the target in 2022–23 and this performance measure is therefore **achieved**.

# Performance measure 1.2 – Prosecutions resulting in a finding of guilt

Measure	Target	R	esult
Prosecutions resulting in a finding of guilt (as a percentage of total matters).	90%	97%	Achieved
Prosecutions resulting in a finding of guilt (as a percentage of defended matters).	70%	65%	Not Achieved

This performance measure assesses the percentage of prosecutions commenced by the CDPP that result in a finding of guilt being imposed by a court. It is interrelated with performance measure 1.1, in that a proper application of the prosecution policy test should inevitably link to prosecution outcomes, including the level of convictions.

The method for assessing the finding of guilt rate is set out at page 13 of the Corporate Plan 2022–26. Defendants may be prosecuted for more than one offence; a defendant is counted as being convicted if at least one offence is proven.

This measure relies on the 2 targets above, which are weighted equally. Achievement of the measure is determined by reference to the number of targets achieved. Neither target achieved equates to the measure not being achieved. One target achieved equates to the measure being partly achieved. Both targets achieved equates to the measure being achieved.

In 2022–23 the CDPP once again met the target for total matters, but not for defended matters. This performance measure was therefore **partly achieved**.

## **1.2.1** Prosecutions resulting in a finding of guilt (total matters)

The finding of guilt rate for this target is calculated by taking the total number of defendants found guilty as a percentage of the total number of defendants found guilty or acquitted. The calculation covers defended matters, matters where the defendant has pleaded guilty and findings of guilt that result in a non-conviction sentencing outcome.

'Conviction' includes any finding of guilt by jury or tribunal of fact including but not limited to where a conviction is recorded. As to the latter, a court may proceed to impose a 'non-conviction' disposition. This most commonly occurs in less serious matters, where extenuating circumstances exist.

The calculation does not include defendants where the CDPP discontinued the prosecution in its entirety or where a prosecution commenced and the defendant failed to appear before the court. Information about discontinuances is at Appendix 4 – Prosecution statistics. There can be a variety of reasons why a matter might be discontinued after it has commenced, including evidence no longer being available (for example, the death of a witness) or factors changing that mean it is no longer in the public interest to prosecute.

The CDPP has consistently exceeded the 90% target, with a result of 97% in 2022–23.

## **1.2.2 Prosecutions resulting in a finding of guilt (defended matters)**

A defended matter is a trial on indictment, or a summary hearing or trial. The target for findings of guilt in defended matters is lower than the target for total matters reflecting the added complexity and uncertainty that is part of most defended hearings.

The finding of guilt rate for this target is calculated by taking the total number of defendants found guilty in defended matters as a percentage of the total number of defendants found guilty or acquitted in defended matters. The calculation covers findings of guilt that result in a non-conviction sentencing outcome. It does not include matters where the CDPP discontinued the prosecution in its entirety or where a prosecution was commenced and the defendant failed to appear before the court.

The CDPP achieved a result of 65% against this target in 2022–23. While below the target of 70%, this is an improvement from the previous year (56%) and the CDPP remains committed to monitoring our performance.

# Performance measure 2.1 – Partner agency satisfaction with CDPP service delivery

The CDPP's performance against Key Activity 2 is measured through a partner agency satisfaction survey which is conducted every 2 years. The last survey was conducted in 2022 and the results were reported in the 2021–22 annual report. Understanding partner agency perceptions of the CDPP across a range of service areas provides valuable insight to help shape and improve our processes, procedures and performance.

The strong and effective partnerships that CDPP has developed with stakeholders is reflected in the ongoing positive feedback and the results of the biennial partner agency satisfaction survey. The CDPP continues to strive for a target of 90% overall satisfaction for our partner agencies (see Table 3). The next survey is scheduled to be conducted in 2024 with results to be reported in the CDPP 2023–24 Annual Report.

# Operating environment

The CDPP manages some of Australia's largest and most complex criminal litigation and works with a range of partner agencies in an increasingly dynamic and challenging operating environment.

With this environment in mind, the CDPP continues to focus effort on business modernisation, improving capability and attracting and retaining talented staff.

We work in a dynamic and complex operating environment with a workload determined by the investigative priorities and operational activities of our partner agencies.

Federal prosecutors regularly work on matters involving criminal conspiracies reaching across international borders, multiple child victims of sexual exploitation, complex financial, corporate and commercial arrangements, sensitive or security classified evidence and highly technical regulatory regimes requiring the assistance of expert witnesses.

The nature of our casework often results in trials which run for weeks or months and in recent years, we have seen an increase in size and complexity of matters referred to us for prosecution. Some of this complexity arises from the increasing volume of digital evidence gathered during a modern criminal investigation of serious crime.

The CDPP's performance management is informed and supported by regular reviews and analysis of outcomes across its key activities, including matters referred by our partner agencies, information about the conduct and outcomes of prosecutions and engagement with our stakeholders.

In 2022-23:

- 2,082 cases were finalised
- 1,506 prosecutions resulted in conviction
- 2,192 cases were referred from 50 different referring agencies.

The top 3 referring agencies – state and territory police, the AFP and Services Australia – represent more than 76% of all combined cases referred.

As at 30 June 2023, 3,402 summary and 4,403 indictable charges under Commonwealth and state and territory legislation were dealt with.

At the conclusion of the reporting period, the CDPP had 4,273 matters before the courts and 3,224 referrals on hand (including some received in prior reporting periods).

## Changing nature of work

Child exploitation matters, including possessing, accessing and transmitting child abuse material and grooming/procuring sexual activity with children domestically and overseas, make up a growing proportion of the CDPP's work. These offences now make up one fifth of the CDPP's active prosecutions, doubling in number over the last 5 years.

Alongside the increasing number of these matters, the complexity, volume and seriousness of offending involving child exploitation continues to increase. Many cases involve large data sets and large numbers of victims. The depravity of the material is also increasing.

In 2022–23 there was a significant increase in the number of prosecutions for federal offences related to GST fraud, primarily due to Operation Protego – an ATO operation to combat an increase in GST related refund fraud.

The CDPP is prosecuting the first war crimes matter flowing from the operations of the OSI. This is the first time the war crimes provisions in the Criminal Code have been used. This matter is currently before the courts and has involved the application of the *National Security Information (Criminal and Civil Proceedings) Act 2004* to proceedings.

The CDPP continues to see an increase in the size and complexity of the matters referred for prosecution. As at 30 June 2023, 51% of the 3,224 matters on hand were highly complex, taking longer to prosecute and requiring more resources.

Some of the drivers behind increased complexity include:

- scale of alleged offending including in organised and structured offending
- reliance on technology as an enabler for serious crime
- large volumes of digital evidence gathered in criminal investigations
- new areas of prosecuting requiring specialist expertise, for example cartels, war crimes, and foreign interference
- cross-border activity requiring foreign evidence and/or extradition of alleged offenders
- multiple victims, particularly involving child victims of sexual exploitation.

# Collaborating with our partners

The CDPP proactively collaborates with partners to build capability and drive improvements in the prosecution process. We engage with partners throughout the prosecution life cycle from pre-brief stage to brief assessment and during the conduct of litigation. This engagement is critical in delivering successful prosecutorial outcomes.

Following analysis of the 2021–22 Partner Agency Satisfaction Survey results, opportunities for improvement were identified to further enhance CDPP's collaboration with partners. Throughout the reporting period, the CDPP:

- encouraged an increased use of our collaboration platform with partners and counsel
- enhanced focus on early engagement
- developed a more robust case review process for feedback from partners.

# Five co-offenders in large-scale tax fraud found guilty in NSW (Operation Elbrus)

On 21 March 2023, following an 11-month trial and 23 days of jury deliberations, guilty verdicts were delivered in the joint trial of 5 Operation Elbrus defendants. The 5 co-offenders involved in this large scale tax fraud and money laundering conspiracy were each found guilty in the NSW Supreme Court. The Crown case took over 6 months to present as the jury heard approximately 70 hours of surveillance device and telephone intercept evidence and considered over 28,000 pages of documentary evidence and summaries.

## **Domestic slavery appeal dismissed**

In March 2023, the Victorian Court of Appeal dismissed the application of 2 offenders to file appeals out of time. The offenders had been sentenced in 2021 following a 12-week jury trial in the Victorian Supreme Court where each was found guilty of domestic slavery offences. The AFP's investigation of the matter commenced in 2015 following a distressed call from the victim, a 55 year-old Indian national brought to Australia to undertake domestic duties. At trial, the prosecution relied on offending conduct from as far back as 2007 as indicia of slavery, including the offenders' control of the freedom of movement of the victim as well as how she conducted her daily life and communicated with her family in India.

# Offender sentenced for contact offending against children in the Philippines

On 21 April 2023, a single judge of the NSW District Court sentenced a male to 16 years' imprisonment with a non-parole period of 11 years for contact sexual offending against children in the Philippines. An examination of devices seized by investigators at a search warrant of the offender's house in 2021 revealed his possession of child abuse material, including self-produced child pornography material from his offending in the Philippines. The offender pleaded guilty to 27 charges including engaging in sexual intercourse with children under 16 and producing child abuse material outside Australia. At least 13 different child victims were identified by investigators.

# Sentence of imprisonment for importation of over 10 million cigarettes undisturbed on appeal

On 28 April 2023, the Victorian Court of Appeal dismissed an appeal brought by a male who had been sentenced for his involvement in the illegal importation of over 10 million cigarettes, with duty payable on the cigarettes of over \$8 million. The offender pleaded guilty to importing tobacco products with the intention of defrauding the revenue, by paying to release the container and hiring others to unload the container and unloading some of the cigarettes himself. In view of the serious nature of the offending and the integral role played by the offender, the sentence of 3 years' imprisonment with 18 months to be served was undisturbed on appeal.

## Conspiring to defraud the Pharmaceutical Benefits Scheme

On 23 April 2023, following 37 sitting days before the NSW District Court, a defendant was found guilty by a jury of one count of conspiracy to dishonestly obtain a gain from the Commonwealth. Over a 16 month period, the offender and his co-offender used their pharmacy to defraud the Pharmaceutical Benefits Scheme of \$19.35 million by falsifying repeat drug prescriptions for medication. The offender was subsequently convicted and sentenced to imprisonment for 6 years and 4 months with a non-parole period of 4 years.

# Final offender convicted for his role in terrorist shooting of NSW Police Force employee

In March 2023, after a fourth jury trial, a jury convicted the final offender for his role in the fatal shooting of a NSW Police Force employee in an act of terror in 2015. The shooter was killed but numerous co-conspirators, including those who supplied the firearm, were prosecuted for terrorism offences. This offender was initially tried in 2018 but the jury was discharged during deliberations. A 2019 jury returned a guilty verdict, and the offender was sentenced to 28 years with a non-parole period of 21 years. However, the conviction was quashed on appeal. A third trial was conducted in late 2022 and the jury was hung. In March 2023, a jury once again returned a guilty verdict. The offender is awaiting sentencing.

### Fines for failure to protect deep sea divers

In May 2023, in Perth Magistrates Court, the registered company DOF Subsea was given fines totalling \$945,000 for 3 offences contrary to the *Offshore Petroleum and Greenhouse Gas Storage Act 2006* (Cth). The prosecution concerned DOF Subsea's failures to take reasonably practicable steps to protect the health and safety of deep-sea divers engaged to conduct work to repair subsea infrastructure located on the seabed at depths between 230 to 270 metres. A contested trial took placed in 2021–22 and involved the application of highly technical subject matter to a voluminous and largely untested regulatory regime in the context of criminal prosecutions.

## Life sentences for importing methamphetamine

The Operation Ligar trials, involving the importation of 1.2 tonnes of methamphetamine into Geraldton in 2017, concluded in 2023. Following an AFP investigation, 8 of the 10 accused were arrested in WA and 2 were subsequently extradited from Sydney to Perth. Three accused pleaded guilty and were sentenced in 2018 and 2019, with all 3 providing statements against the other 7 accused. Affected by COVID restrictions, a jury being discharged, one accused being severed from a joint indictment and one accused matter being discontinued, 5 accused eventually stood trial before a jury from August to November 2022. A trial of the severed accused took place in March 2023. In total there were 8 convictions with 3 offenders being sentenced to life imprisonment. Notices of appeal have been lodged in relation to 5 of the offenders.

# Part 3: Financial statements

# Financial performance 2022-23

The work of the CDPP is primarily funded through parliamentary appropriations, with a component of revenue under memoranda of understanding agreements with partner agencies.

The CDPP reported a total comprehensive loss of \$5.05 million in 2022–23. Excluding the impact of depreciation and asset revaluations, the result for the 2022–23 financial year was an operating deficit of \$2.85 million (Note 3.2 to the financial statements).

Employees and engagement of counsel are CDPP's largest individual costs, making up approximately 49% and 14% of total expenses respectively.

While CDPP's average staffing level grew to 423 for 2022–23 (403 in 2021–22), high levels of attrition continue to offset recruitment and retention strategies, ultimately resulting in lower than budgeted employee expenses for the year.

Prosecution legal costs (predominately engagement of counsel) have risen significantly against recent years, driven by a combination of individually high-cost prosecutions and increased activity after easing of pandemic restrictions.

Further, 2022–23 saw significant costs awarded against the Commonwealth, with expenses of \$3.23 million compared to \$0.57 million budgeted. Unsuccessful prosecutions may result in the CDPP being required to meet costs of the defendant. Awards of costs are made by the Courts, and the CDPP is unable to control or predict the quantum or number of such awards.

Whilst the CDPP reported an operating deficit in the Statement of Comprehensive Income, it has a sound financial position. As at 30 June 2023, the CDPP's total assets of \$70.85 million exceeded total liabilities of \$51.50 million. The CDPP had sufficient financial assets to fund its liabilities and commitments as they fall due.

The Australian National Audit Office issued an unmodified opinion for the financial statements.

There were no significant instances of non-compliance with the finance law.

### INDEPENDENT AUDITOR'S REPORT

#### To the Attorney-General

#### Opinion

In my opinion, the financial statements of the Office of the Commonwealth Director of Public Prosecutions (the Entity) for the year ended 30 June 2023:

- (a) comply with Australian Accounting Standards Simplified Disclosures and the Public Governance, Performance and Accountability (Financial Reporting) Rule 2015; and
- (b) present fairly the financial position of the Entity as at 30 June 2023 and its financial performance and cash flows for the year then ended.

The financial statements of the Entity, which I have audited, comprise the following as at 30 June 2023 and for the year then ended:

- Statement by the Accountable Authority and Chief Financial Officer;
- Statement of Comprehensive Income;
- Statement of Financial Position;
- Statement of Changes in Equity;
- Cash Flow Statement; and
- Notes to and forming part of the financial statements, comprising a summary of significant accounting
  policies and other explanatory information.

#### **Basis for opinion**

I conducted my audit in accordance with the Australian National Audit Office Auditing Standards, which incorporate the Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Entity in accordance with the relevant ethical requirements for financial statement audits conducted by the Auditor-General and his delegates. These include the relevant independence requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (*including Independence Standards*) (the Code) to the extent that they are not in conflict with the *Auditor-General Act 1997*. I have also fulfilled my other responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Other information

The Accountable Authority is responsible for the other information. The other information comprises the information included in the annual report for the year ended 30 June 2023 but does not include the financial statements and my auditor's report thereon.

My opinion on the financial statements does not cover the other information, and accordingly I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

GPO Box 707, Canberra ACT 2601 38 Sydney Avenue, Forrest ACT 2603 Phone (02) 6203 7300

#### Accountable Authority's responsibility for the financial statements

As the Accountable Authority of the Entity, the Director of Public Prosecutions is responsible under the *Public Governance, Performance and Accountability Act 2013* (the Act) for the preparation and fair presentation of annual financial statements that comply with Australian Accounting Standards – Simplified Disclosures and the rules made under the Act. The Director of Public Prosecutions is also responsible for such internal control as the Director of Public Prosecutions determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Director of Public Prosecutions is responsible for assessing the ability of the Entity to continue as a going concern, taking into account whether the Entity's operations will cease as a result of an administrative restructure or for any other reason. The Director of Public Prosecutions is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless the assessment indicates that it is not appropriate.

### Auditor's responsibilities for the audit of the financial statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian National Audit Office Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with the Australian National Audit Office Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
  error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
  sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material
  misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion,
  forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
  appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
  the Entity's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Accountable Authority;
- conclude on the appropriateness of the Accountable Authority's use of the going concern basis of accounting
  and, based on the audit evidence obtained, whether a material uncertainty exists related to events or
  conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If I conclude
  that a material uncertainty exists, I am required to draw attention in my auditor's report to the related
  disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My
  conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future
  events or conditions may cause the Entity to cease to continue as a going concern; and
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Accountable Authority regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

### Commonwealth Director of Public Prosecutions STATEMENT BY THE ACCOUNTABLE AUTHORITY AND CHIEF FINANCIAL OFFICER

In our opinion, the attached financial statements for the year ended 30 June 2023 comply with subsection 42(2) of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act), and are based on properly maintained financial records as per subsection 41(2) of the PGPA Act.

In our opinion, at the date of this statement, there are reasonable grounds to believe that the Office of the Commonwealth Director of Public Prosecutions (CDPP) will be able to pay its debts as and when they fall due.

### Commonwealth Director of Public Prosecutions NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

For the period ended 30 June 2023

### **Overview**

### **Objectives of the Entity**

The objective of the CDPP is to contribute to a fair, safe and just society by delivering an effective, independent prosecution service in accordance with the *Prosecution Policy of the Commonwealth*.

The CDPP is a not-for-profit, Commonwealth statutory agency domiciled in Australia. The CDPP's registered office is 28 Sydney Avenue, Forrest in the Australian Capital Territory. The CDPP undertakes its legal work in the courts of every Australian state and territory, as well as in the Federal Court of Australia.

### The Basis of Preparation

The financial statements are required by Section 42 of the PGPA Act.

The financial statements have been prepared in accordance with:

- Public Governance, Performance and Accountability (Financial Reporting) Rule 2015 (FRR); and
- Australian Accounting Standards and Interpretations including simplified disclosures for Tier 2 Entities under AASB 1060 issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

#### Significant Accounting Judgments and Estimates

In the process of applying the accounting policies listed in the notes, the CDPP has made judgements in relation to:

- the fair value of property, plant and equipment and the related make good assessed at market value or current replacement costs as determined by an independent valuer, with the last valuation being performed as at 30 June 2023. Fair value is subject to management assessment in between formal valuations; and
- employee provisions involves assumptions based on the expected tenure of existing staff, patterns of leave claims and payouts, future salary movements and future discount rates

that have a significant impact on the amounts recorded in the financial statements.

No accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to carrying amounts of assets and liabilities within the next 12 months.

### New Australian Accounting Standards

All new/revised/amending standards and/or interpretations that were issued prior to the sign-off date and are applicable to the current reporting period did not have a material effect on the CDPP's financial statements.

#### Taxation

The CDPP is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

### Restatement of 2021–22 Comparative Figures for Prior Period Error

Comparative figures for Note 3.1A Appropriations have been restated to account for a prior year understatement of PGPA Act section 74 receipts, as shown in the table below. The restatement has nil impact on the 2021–22 operating result and nil impact on balances for cash and appropriation receivable.

### **Events After the Reporting Period**

There have been no events that have the potential to significantly affect the ongoing structure and financial activities of the CDPP.

### Commonwealth Director of Public Prosecutions NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS For the period ended 30 June 2023

### **Budget Variances**

The following table provides high-level commentary on major variances between budgeted information for the CDPP as published in the Attorney General's October 2022–23 Portfolio Budget Statements and the 2022–23 final outcome as presented in accordance with Australian Accounting Standards. Major variances are those relevant to an analysis of CDPP's performance and are not focused merely on numerical differences between the budget and actual results.

Explanation of major variances	Affected line items
While CDPP's average staffing level (ASL) grew to 423 for 2022–23 (403, 2021–22), continued high levels of attrition offset recruitment and retention strategies ultimately resulting in lower than budgeted staffing levels. This contributed to:	Statement of comprehensive income, <i>Employee benefits</i> Statement of financial position,
<ul> <li>Employee benefits \$2.6 million lower than budgeted.</li> <li>Employee leave provisions \$2.4 million lower than budgeted.</li> </ul>	Employee leave provisions
Prosecution legal costs (predominately engagement of counsel) increased significantly against recent years and budget expectations. A combination of individually high-cost prosecutions and increased activity after easing of pandemic restrictions contributed to:	Statement of comprehensive income, Suppliers
<ul> <li>Supplier expenses \$5.1 million higher than budgeted.</li> <li>Operating cash used (suppliers) \$6.1 million higher than budgeted</li> </ul>	Cash flow statement, Operating cash used (Suppliers)
Unsuccessful prosecutions may result in CDPP being required to meet costs of the defendant. Awards of costs are made by the Courts, and the CDPP is unable to control or predict the quantum or number of such awards. Cost decisions during 2022–23 contributed to:	Statement of comprehensive income, Costs awarded against the Commonwealth
<ul> <li>Costs awarded against the Commonwealth \$2.7 million higher than budgeted.</li> <li>Operating cash used (other) \$2.2 million higher than budgeted.</li> </ul>	Cash flow statement, Operating cash used (Other)
In response to higher than budgeted prosecution costs, CDPP obtained supplementation of prosecution services revenue, in addition to budgeted amounts, under two MOUs with partner agencies. Supplementation contributed to:	Statement of comprehensive income, Revenue from contracts with customers
<ul> <li>Revenue from contracts with customers \$2.3 million higher than budgeted.</li> <li>Operating cash received (sale of goods and rendering of services) \$2.0 million higher than budgeted.</li> </ul>	Cash flow statement, Operating cash received (Sale of Goods and rendering of services)
CDPP undertook a full asset revaluation during the financial year. Asset revaluation results are not budgeted, resulting in:	Statement of comprehensive income, Changes in asset revaluation
<ul><li>Changes in asset revaluation \$2.3 million higher than budgeted.</li><li>Reserves \$2.3 million higher than budgeted.</li></ul>	Statement of financial position, <i>Reserves</i>
CDPP recognised no right-of-use property asset acquisitions in 2022–23, against a notional budget of \$7.8 million in right-of-use asset acquisitions. This contributed to:	Statement of financial position, Property
<ul><li>Property \$8.4 million lower than budgeted.</li><li>Lease liabilities \$8.0 million lower than budgeted.</li></ul>	Statement of financial position, Leases
CDPP had to withdraw more cash from appropriation than was budgeted to meet higher than budgeted expenses. This contributed to:	,
<ul> <li>Operating cash received (appropriations) \$7.9 million higher than budget.</li> </ul>	Operating cash received (Appropriations)

Short-term leases and leases of low-value assets

The CDPP has elected not to recognise right-of-use assets and lease liabilities for short-term asset leases with a lease term of 12 months or less and leases of low-value assets (less than \$10,000 per asset). The CDPP recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

### **Accounting Policy**

The CDPP provides prosecution services to partner agencies under Memorandum of Understanding (MOU). MOUs contain the specific performance obligation to provide a stand ready prosecution service over specified financial years. Revenue is recognised over-time in line with agreed annual funding set out in each MOU.

Receivables for goods and services, which have 30-day terms, are recognised at the nominal amounts due less any impairment allowance. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

As at 30 June 2023, the CDPP had sublease arrangements at 2 locations with Australian Government entities (2022: 2 locations).

The above lease disclosures should be read in conjunction with the accompanying notes 1.1B, 1.1C, 2.2A and 2.4A.

### **Accounting Policy**

### Resources received free of charge

Resources received free of charge are recognised as revenue when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense. Resources received free of charge are recorded as either revenue or gains depending on their nature.

For the period ended 30 June 2023

### Note 1.2: Revenue and Gains (continued)

### Proceeds of Crime Act 2002

The CDPP received *Proceeds of Crime Act 2002* funding for the development of national digital capabilities under an MOU with the Department of Home Affairs. The MOU outlines specific deliverables relating to the completion of three separately identifiable projects which were completed in the 2022–23 financial year.

Transfers that relate to the construction of recognisable non-financial assets are recognised as income when obligations under the MOU are satisfied. Other transfers under this MOU are recognised as income upon transfer.

The above disclosure should be read in conjunction with the accompanying note 2.2B.

Cash and cash equivalents

Cash is recognised at its nominal amount.

### Trade receivables

Trade and other receivables that are held for the purpose of collecting the contractual cash flows where the cash flows are solely payments of principal and interest, that are not provided at below-market interest rates, are subsequently measured at amortised cost using the effective interest method adjusted for any loss allowance.

CDPP recognises a loss allowance and impairment expense at an amount equal to lifetime expected credit losses. No impairment has been recognised as at 30 June 2023 (2022: nil).

The fair value of CDPP's financial assets and liabilities approximate their carrying amounts. The CDPP derived no interest income from financial assets in either the current or prior year.

No significant property, plant and equipment and intangibles are expected to be sold or disposed of within the next 12 months.

### **Revaluations of non-financial assets**

All revaluations were conducted in accordance with the revaluation policy. CDPP engaged the services of an independent valuer to conduct the revaluations as at 30 June 2023.

**Contractual commitments for the acquisition of property, plant and equipment and intangible assets** As at 30 June 2023 there were capital commitments of \$42,016 (GST exclusive) for plant and equipment (2022: \$50,326) and \$1,385,640 (GST exclusive) for property (2022: nil).

For the period ended 30 June 2023

### Note 2.2: Non-Financial Assets (continued)

### **Accounting Policy**

### Recognition and Depreciation

Assets are recognised initially at cost on acquisition in accordance with the table below.

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the CDPP using, in all cases, the straight-line method of depreciation. Intangible assets are amortised on a straight-line basis.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	Useful Life	Threshold
	(years)	(\$)
Property	lease term	20,000 or 5%
		of total value
Plant and equipment	2 to 100 years	2,000
Intangibles	3 to 6 years	5,000

The depreciation rates for right-of-use assets are based on the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

### Lease Right-of-Use Assets

Leased right-of-use assets are capitalised at the commencement date of the lease and comprise of the initial lease liability amount, estimated restoration costs and initial direct costs incurred when entering into the lease, less any lease incentives received. These assets are accounted for as separate asset classes to corresponding assets owned outright but included in the same column as where the corresponding underlying assets would be presented if they were owned.

Following initial application, an impairment review is undertaken for any right-of-use lease asset that shows indicators of impairment and an impairment loss is recognised against any right-of-use lease asset that is impaired.

### **Revaluations**

Fair values for each class of asset are determined as shown below:

Asset class	Fair value measured at
Property	Depreciated replacement cost
Plant and equipment	Market selling price and depreciated replacement cost

Following initial recognition at cost, property, plant and equipment (excluding right-of-use assets) are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depends upon the volatility of movements in market values for the relevant assets. The most recent independent valuation was conducted on 30 June 2023. An impairment assessment is carried out on an annual basis.

Assets are revalued in accordance with AASB 116 *Property, Plant and Equipment* approximately every five years unless the annual fair value assessment suggests that there is a material difference between carrying value of assets and their fair value. Where there is a material difference, all assets in that category are revalued.

For the period ended 30 June 2023

### Note 2.2: Non-Financial Assets (continued)

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the surplus/deficit except to the extent that they reversed a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset restated to the revalued amount.

### Impairment

All assets are assessed annually for impairment. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

### Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

### **Intangibles**

CDPP's intangibles include purchased software and internally generated software for internal use. These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the CDPP's software are 3 to 6 years (2022: 3 to 6 years).

All software assets were assessed for indications of impairment as at 30 June 2023.

Cash outflow for leases for the year ended 30 June 2023 was \$7,536,832 (GST exclusive) (2022: \$7,244,805).

The CDPP in its capacity as lessee, has recognised lease liabilities in relation to leases of office space at 10 premises (2022: 10) and 8 automobiles (2022: 8). All of these leases have a fixed schedule of rent payments.

Five of the property lease agreements include extension options ranging from 2 to 5 years. The likelihood of exercising these options is reviewed regularly and incorporated into the measurement of the lease liability where appropriate.

The above lease disclosures should be read in conjunction with the accompanying notes 1.1B, 1.1C, 1.2B and 2.2A.

For the period ended 30 June 2023

### Note 2.4: Interest Bearing Liabilities (continued)

### Accounting Policy

For all new contracts entered into, the CDPP considers whether the contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

Once it has been determined that a contract is, or contains a lease, the lease liability is initially measured at the present value of the lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease, if that rate is readily determinable, or the department's incremental borrowing rate.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification to the lease. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset or profit and loss depending on the nature of the reassessment or modification.

<sup>1</sup> Departmental capital budgets are appropriated through Appropriation Acts (No. 1 and 3). They form part of ordinary annual services and are not separately identified in the Appropriation Acts.

<sup>2</sup> Comparative figures for PGPA Act section 74 receipts and Appropriation applied have been restated by \$1.38 million to account for a prior year understatement of PGPA Act section 74 receipts. The impact of this restatement on closing appropriation balances is nil. Refer to Overview section for details.

<sup>3</sup> The CDPP reported a 2022–23 net cash operating deficit of \$2.9 million (see Note 3.2), resulting in additional appropriation applied. The deficit predominately relates to prosecution legal costs (specifically engagement of counsel) being higher than budgeted expectations, as well as an increase in costs awarded against the Commonwealth.

<sup>4</sup> The CDPP received \$2.2 million to fund specific property and software projects. These projects are expected to be delivered in 2023-24.

<sup>1</sup> From 2010–11, the Government introduced net cash appropriation arrangements where revenue appropriations for depreciation/amortisation expenses of non-corporate Commonwealth entities and selected corporate Commonwealth entities were replaced with a separate capital budget provided through equity appropriations. Capital budgets are to be appropriated in the period when cash payment for capital expenditure is required.

<sup>2</sup> The inclusion of depreciation/amortisation expenses related to right-of-use leased assets and the lease liability principal repayment amount reflects the impact of AASB 16 Leases, which does not directly reflect a change in appropriation arrangements.

### People and relationships

This section describes a range of employment and postemployment benefits provided to our people and our relationships with other key people.

### Note 4.1: Employee Provisions

### Accounting Policy

Liabilities for short-term employee benefits and termination benefits expected within 12 months of the end of reporting period are measured at their nominal amounts.

### <u>Leave</u>

The liability for employee benefits includes provision for annual leave and long service leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is taken, including the CDPP's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave has been determined using an employee-based spreadsheet model developed by the Australian Government Actuary for the 2020–21 financial year and future years. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

### Separation and Redundancy

Provision is made for separation and redundancy benefit payments. There were no provisions for termination as at 30 June 2023 (2022: nil).

### Superannuation

CDPP's staff are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS) or the PSS accumulation plan (PSSap), or other superannuation funds held outside the Australian Government.

The CSS and PSS are defined benefit schemes for the Australian Government. The PSSap is a defined contribution scheme.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance's administered schedules and notes.

The CDPP makes employer contributions to the employees' defined benefit superannuation scheme at rates determined by an actuary to be sufficient to meet the current cost to the Government. The CDPP accounts for the contributions as if they were contributions to defined contribution plans. The liability for superannuation recognised as at 30 June represents outstanding contributions.

For the period ended 30 June 2023

### Note 4.2: Key Management Personnel Remuneration

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity. The CDPP has determined key management personnel to be the Director (Accountable Authority) and the Executive Leadership Group (made up of the Commonwealth Solicitor for Public Prosecutions, Deputy Directors and the Chief Corporate Officer)<sup>1</sup>. Key management personnel remuneration is reported in the table below:

	2023	2022
	\$'000	\$'000
Note 4.2A: Key management personnel remuneration		
Short-term employee benefits	2,249	2,572
Post-employment benefits	383	441
Other long-term employee benefits	98	62
Total key management personnel remuneration expenses <sup>1,2</sup>	2,730	3,075

The total number of key management personnel that are included in the above table are 10 (2022: 11) representing the people who individually occupied the key management personnel position during the year.

<sup>1</sup> In 2021–22, key management personnel also included the Chief Financial Officer. A 2022–23 review determined that the role and duties of the Chief Financial Officer no longer meets the criteria for being a key management personnel.

<sup>2</sup> The above key management personnel remuneration excludes the remuneration and other benefits of the Portfolio Minister. The Portfolio Minister's remuneration and other benefits are set by the Remuneration Tribunal and are not paid by the CDPP.

### Note 4.3: Related Party Disclosures

### Related party relationships:

The CDPP is an Australian Government controlled entity. Related parties to this entity are key management personnel, including the Portfolio Minister and other Australian Government entities.

### Transactions with related parties:

Given the breadth of Government activities, related parties may transact with the government sector in the same capacity as ordinary citizens. These transactions have not been separately disclosed in this note.

Giving consideration to relationships with related entities, and transactions entered into during the reporting period by the entity, it has been determined that there are no related party transactions to be separately disclosed.

For the period ended 30 June 2023

### **Managing uncertainties**

This section analyses how the CDPP manages financial risks with its operating environment

### Note 5.1: Contingent Assets and Liabilities

### **Quantifiable Contingencies**

As at 30 June 2023, the CDPP had no quantifiable contingent assets or liabilities (2022: nil).

### **Unquantifiable Contingencies**

If a matter is unsuccessfully prosecuted by the CDPP, the Courts may order that the CDPP pay certain costs to the defendant. Costs so awarded are met from the CDPP and/or client organisation's annual appropriations.

Costs have been awarded against the CDPP by the Courts on some occasions in past financial years. On this basis, it is anticipated that this will occur on some occasions during the next financial year. However, since awards of costs are made by the Courts, and the CDPP is unable to control or predict the quantum or number of such awards, the CDPP is unable to quantify its potential future liabilities in this regard.

### **Accounting Policy**

Contingent assets and liabilities are not recognised in the statement of financial position but are reported in the notes. They may arise from uncertainty as to the existence of a liability or asset or represent an asset or liability in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain and contingent liabilities are disclosed when settlement is greater than remote.

### Part 4: Management and Accountability

### Governance structures

The governance framework, as depicted in Figure 2, supports the achievement of the CDPP's purpose. The governance framework is an effective system for managing risk and fraud as well as human and financial resources through planning and assurance processes.

### Governance committees

The following committees support the Director and ensure effective governance within the CDPP.

### Table 4: Governance committees overview

### **Audit Committee**

The Director established the Audit Committee in accordance with section 45 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act) and section 17 of the PGPA Rule. The CDPP Audit Committee charter can be found at https://www.cdpp.gov.au/ publications/cddp-audit-committee-charter.

Table 5 sets out details for the CDPP Audit Committee as required under section 17AG(2A) of the PGPA Rule.

### Fraud prevention and control

The CDPP works diligently to minimise the potential for fraud and corruption through continuous improvement of the fraud control framework and control mechanisms. The fraud control policy helps employees, contractors, consultants and the public understand what fraud is and encourages employees at all levels to participate in protecting public resources. The fraud control plan is regularly updated in response to our fraud risk register and management plan, which is updated biannually and reviewed by the ELG.

Through the Audit Committee, the Director is assured that fraud prevention, detection, investigation and reporting mechanisms are in place to meet the requirements of the Commonwealth Fraud Control Framework 2017, and specifically section 10(b) of the PGPA Rule. During the reporting period there were no reported incidents of fraud.

### **Risk management**

Risk management is an integral part of the CDPP's strategy and planning processes. The CDPP Risk Management Framework aligns with the international standard AS/NZ ISO 31000:2018 – Risk Management – Principles and Guidelines, the PGPA Act and PGPA Rule, and the Commonwealth Risk Management Policy.

The ELG and Audit Committee actively monitor and manage the CDPP's Strategic Risk Register, ensuring risk management is effective and continues to support organisational performance. During the reporting period, the risk register was reviewed each quarter with updates made to risk controls and treatment details as required. Risks were monitored and managed as part of the broader risk management program.

Maintaining a positive risk culture within the CDPP is critical to promoting an open and proactive approach to managing risk that considers both threat and opportunity. Staff are empowered and enabled to actively engage with risk through education, tools and guidance to confidently identify, measure and manage organisational risks within risk tolerances and without stifling opportunities for innovation.

The organisation takes a proactive risk management approach in litigation management plans, which helps to manage complex cases by promoting active planning of case activities and regular updates as matters proceed through the prosecution process.

The Commonwealth Risk Management Policy, under element 7, requires that shared risks be identified, managed and reported with appropriate partner agencies. Each entity must implement arrangements to understand and contribute to the management of shared risks. The CDPP is working with the Attorney-General's Department to establish procedures for reporting and managing shared risks in the portfolio.

### Internal audit

Internal audit is an independent function that seeks to improve operations by providing objective assurance and advice that supports decision-making. It is part of the CDPP's governance framework and helps achieve objectives by bringing a systematic, disciplined approach to risk management, optimisation of controls, and effective governance.

The activities of the organisation's internal auditor are risk-based and detailed in a strategic internal audit plan endorsed by the Audit Committee. The strategic internal audit plan coordinates internal audit activity with other assurance activities and mechanisms including external audits.

The internal audit service provider undertook a broad range of audits, with no significant control breakdowns identified in the reporting period.

### Privacy

Obligations under the *Privacy Act 1988* and the Australian Privacy Principles guide the CDPP's privacy policy and National Legal Direction. These cover all privacy considerations in relation to our collection, storage, release and disposal of personal information. In addition, the Privacy Management Plan identifies specific, measurable privacy goals and targets and sets out how it will meet privacy compliance obligations.

There were no notifiable data breaches identified during the reporting period.

### Public interest disclosure

The CDPP is committed to the highest standards of ethical and accountable conduct, encouraging, supporting and protecting public officials who report disclosable conduct in accordance with the *Public Interest Disclosure Act 2013*.

The organisation recognises the importance of an effective system for reporting and investigating disclosable conduct and provides appropriate training for our authorised officers. There is also a dedicated email address for disclosures to be made to authorised officers.

The CDPP's public interest disclosure procedure and supporting documents are published on the CDPP website at https://www.cdpp.gov.au/about-us/accountability-and-reporting/ public-interest-disclosure-act.

### Commonwealth Child Safe Framework

The safety and wellbeing of children and young people is a priority for the CDPP leadership team and staff, with particular emphasis on providing support for victims of child abuse crime. As Australia's Federal Prosecution Service, the organisation has a significant role and responsibility for ensuring CDPP staff treat victims with courtesy, compassion, cultural sensitivity and respect for their dignity and entitlements. Ensuring the safety of children and respecting their rights underpins the important work of the CDPP.

The CDPP is compliant with the 4 core requirements of the Commonwealth Child Safe Framework. The Annual Statement of Compliance, published in November 2022, can be viewed on the CDPP website.

The CDPP reviews its risk register annually to ensure risks related to child safety are documented and treatments are applied to reduce levels of risk. The risk assessment conducted for the annual reporting period rated the child safety risk as low. The CDPP has limited interaction with children, however this interaction usually occurs during the process of prosecuting offences against Commonwealth law where the child or young person is a victim of crime.

In ensuring a child-safe environment, the CDPP has embedded the following initiatives:

- published a Child Safety and Wellbeing Policy, which includes a list of Child Safe Professional Behaviours
- provided training to CDPP legal staff on vicarious trauma and implemented specific trauma informed training for WAS staff
- included Child Safety and Wellbeing Policy requirements in the standard terms and conditions when briefing private barristers.

### External scrutiny

The CDPP considers judicial or administrative decisions and reports, and recommendations from Parliamentary committees and other governing or oversight bodies, that may impact its operations. Progress against implementation of recommendations is reported to the ELG and the Audit Committee for oversight, where applicable.

In May 2023, the Auditor-General handed down a report on *Implementation of Parliamentary Committee and Auditor-General Recommendations – Attorney-General's Portfolio* which included recommendations relating to governance and reporting arrangements, systems, and assurance and evaluation. The CDPP has accepted the recommendations of the Auditor-General and is monitoring implementation as part of its regular processes.

During the reporting period there were no decisions of judicial or administrative tribunals or the Australian Information Commissioner, or any report from the Commonwealth Ombudsman or a Parliamentary committee, that have had or may have a significant impact on CDPP operations.

### Complaints and feedback

In November 2018, in response to recommendations made by the Royal Commission into Institutional Responses to Child Abuse, the CDPP established a dedicated Feedback and Complaints page on the CDPP website. The page sets out the process for making a complaint or providing feedback, includes a link to the complaints policy, and summarises what an accused person, witness, victim of crime or member of the public can expect when they lodge a complaint.

The ELG reviews complaints and feedback data annually to identify any systemic issues and take appropriate action. In accordance with recommendations made by the Royal Commission, the WAS aims to ensure that victims of crime who have been referred to the WAS are provided with information on feedback and complaints processes.

In 2022–23 the CDPP received 48 submissions, of which 10 have been the subject of an investigation. The remaining 38 submissions were not investigated because they were either a misdirected complaint, reporting an alleged crime, or providing feedback on a current prosecution.

Of the 10 complaints the subject of an investigation, 6 were found to be without basis and 3 led to remedial action being undertaken. There is one complaint where the investigation is ongoing.

### **Right of Review**

Complainants who are victims of offences involving a child (person under 18 years); offences involving slavery, servitude and forced marriage; or offences which result in serious physical or psychological harm, are entitled to ask the CDPP to review any decision made to wholly discontinue a prosecution. This review process also extends to matters involving the death of a person as a result of any alleged offences.

The Right of Review process is an important way of ensuring complainants feel heard and are consulted in regard to prosecutorial decision making. Any review is personally undertaken by the Director.

In 2022–23 the CDPP received one request to review a decision to discontinue a prosecution. Following the review, the decision to discontinue the prosecution was upheld.

### Our people

### Workplace agreements

Non-senior executive service (SES) staff employed under the *Public Service Act* 1999 (PS Act) continue to be covered by the *Office of the Commonwealth Director of Public Prosecutions* (*CDPP*) *Enterprise Agreement* 2017 - 2020. A section 24(1) determination under the PS Act provided 2% annual salary increases between 2020 and 2022, with the last increase during the reporting period taking effect on 8 August 2022.

The terms and conditions of employment for SES staff are provided for under individual common law agreements. A remuneration increase for SES officers was provided in July 2021 under a section 24(1) determination, capped in line with the wage price index effective June 2021.

A small number of employees have remuneration and employment conditions covered by section 24(1) determinations made under the PS Act, or individual flexibility agreements.

The CDPP also offers staff non-salary benefits including:

- flexible working arrangements
- salary packaging
- learning and development opportunities, including a Continuing Legal Education program and studies assistance for eligible employees
- access to the Wellbeing Program.

### **Employment arrangements**

Tables 6 and 7 show CDPP's employment arrangements for SES and non-SES staff.

### Employee profile

All staffing information is prepared in accordance with the instrument issued under subsection 17A(4) of the PGPA Rule.

As at 30 June 2023, the CDPP had 452 employees. For information related to workforce statistics including numbers and locations of staff, employment arrangements and remuneration, refer to Appendix 3 – Workforce statistics.

### Workforce strategies

### **Capability development**

The CDPP remains committed to investing in the development of its people through learning and development opportunities. It aims to embed an organisational culture of continual learning and skills development that drives high performance, builds capability and supports our people to successfully deliver on strategic priorities.

This commitment is captured in the Legal Capability Strategy 2023–26. This strategy sets out a framework for the CDPP to respond to capability challenges, risks and opportunities presented by the current and future operating environment. The strategy recognises the importance of building the CDPP's legal capability through on the job learning and training programs. Leadership and management expertise are the other key areas of capability development addressed through the strategy.

### Workforce planning

The CDPP Workforce Plan 2022–26 addresses and mitigates key workforce capability and capacity risks to position the organisation to proactively manage and respond to emerging and evolving work challenges. The workforce plan also ensures a sustainable approach to managing workforce supply and capability into the future.

### **Diverse workforce**

Diversity and inclusion are fundamental elements of the CDPP's culture. Individual views, values, experiences and perspectives shape and strengthen how the organisation delivers a fair, equitable and consistent prosecution service to a diverse Australian community.

The CDPP recognises diversity comprises many forms including gender, sexual orientation, educational or professional background, cultural and linguistic backgrounds, caring responsibilities, age, ability and life experiences.

The CDPP's commitment to diversity and inclusion is supported and shaped by the Diversity and Inclusion Network, comprising of employees from across the organisation and led by the Diversity and Inclusion Champion and Deputy Champions.

### **Diversity and inclusion Strategy**

The CDPP 2021–23 Diversity and Inclusion Strategy and Action Plan reached its maturity on 30 June 2023. It provided a 3 year strategic roadmap to help the organisation continue to build a more inclusive culture and progress diversity efforts and focus through practical actions. The strategy was underpinned by 3 key principles:

- Visibility the commitment to diversity and inclusion is actively and visibly promoted.
- **Capability** the workforce is equipped with the knowledge needed to embrace and embed workplace inclusion across the organisation and identify unconscious bias, addressing it where it may exist.
- **inclusion** the organisation drives a consistent, supportive and respectful approach to inclusion and seek to create career pathways for diverse talent.

Each of these principles demonstrated our ongoing commitment to increasing the level of understanding and awareness of diversity and inclusion across the organisation.

### Australia's Disability Strategy 2021–2031

Australia's Disability Strategy 2021–31 is the overarching framework for inclusive policies, programs and infrastructure that will support people with disability to participate in all areas of Australian life. The strategy sets out where practical changes will be made to improve the lives of people with disability in Australia. It acts to ensure the principles underpinning the United Nations Convention on the Rights of Persons with Disabilities are incorporated into Australia's policies and programs that affect people with disability, their families and carers.

All levels of government have committed to deliver more comprehensive and visible reporting under the strategy. A range of reports on progress of the strategy's actions and outcome areas will be published and available at www.aspc.gov.au.

### Work health and safety

The CDPP considers the safety and wellbeing of all employees and other workers as a high priority. This commitment is informed by adherence to compliance requirements under the *Work Health and Safety Act 2011, Work Health and Safety Regulations 2011* and the *Safety, Rehabilitation and Compensation Act 1988.* 

The CDPP's Work Health and Safety Management System provides a framework of policies, procedures, and guidelines to help build a safe workplace and to ensure risk of injury and/or illness are effectively assessed and managed.

### **Reporting incidents and enforcement measures**

All hazards and incidents are reported in accordance with the CDPP Work Health Safety Incident reporting procedures.

Twenty-five hazard incident reports were received during 2022–23. None of the reports required notification to Comcare. No additional actions, enforcement measures or improvement notices were issued to the organisation during the reporting period.

### Wellbeing program

The CDPP prioritises employee health and wellbeing through the CDPP Wellbeing Program. The program fosters a supportive environment and facilitates health and wellbeing practices. In 2022–23 the program was reviewed to include a renewed focus on mental health. CDPP employee's mental health is supported by regular wellbeing checks (conducted by registered psychologists) and the Employee Assistance Program that offers confidential and free employee assistance services to employees and their immediate families as well as a manager assistance service. During the reporting period the employee assistance provider delivered 136 hours of support to employees and their families and over 570 wellbeing checks.

The CDPP recognises that employees who are fit and healthy are likely to be more productive and engaged in the workplace. The enterprise agreement provides for reimbursement of up to \$250 a year for approved health and wellbeing activities or equipment or for work-related items to assist with remote working.

The annual influenza vaccination program was undertaken in April 2023. Free vaccinations were accessible to all employees.

### Asset management, purchasing and grants

The CDPP's major assets are right-of-use leased premises, office fit out, office furniture, computer equipment, purchased software, and library holdings, which are subject to an annual stocktake to ensure the accuracy of our asset records.

### Purchasing

We undertook our procurement and purchasing in the reporting period in accordance with the principles set out in the Commonwealth Procurement Rules.

The CDPP's procurement policies and practices are informed by the Director's Finance Instructions and supporting guidelines. These have been developed to ensure the organisation undertakes competitive, non-discriminatory procurement processes; obtains value for money; encourages competition among actual and potential suppliers; promote the use of resources in an efficient, effective, economical and ethical manner; and are accountable and transparent during the procurement process.

### Small and medium enterprises

The CDPP supports small business participation in the Commonwealth Government procurement market. Small and medium enterprises (SME) and small enterprise participation statistics are available on the Department of Finance's website.

Some of the ways the organisation's procurement practices support SMEs include:

- using the Commonwealth Contracting Suite for low-risk procurements valued under  $\$200{,}000$
- communicating in clear, simple language and presenting information in an accessible format
- adhering to the Pay-on-Time Policy relating to paying small business suppliers.

### Consultants

The CDPP engages consultants where it lacks specialist expertise or when independent research, review or assessment is required. Typically, the CDPP engages consultants to investigate or diagnose a defined issue or problem, carry out defined reviews or evaluations, or provide independent advice, information or creative solutions to assist in decision-making.

Before engaging consultants, the CDPP considers the skills and resources required for the task, the skills available internally, and the cost-effectiveness of engaging external expertise. Decisions to engage a consultant are made in line with the PGPA Act and related regulations (including the Commonwealth Procurement Rules and relevant internal policies).

Annual reports contain information about actual expenditure on reportable consultancy contracts. Information on the value of reportable consultancy contracts can be found on the AusTender website.

During 2022–23, the CDPP entered into 8 new reportable consultancy contracts involving total actual expenditure of \$296,448. In addition, 4 ongoing reportable consultancy contracts were active during the period, involving total actual expenditure of \$256,754.

The following organisations received a share of reportable consultancy contract expenditure during the reporting period.

### Table 8: Top 5 consultancy organisations current report period (2022–23)

### Contracts

Annual reports contain information about actual expenditure on reportable non-consultancy contracts. Information on the value of reportable non-consultancy contracts is available on the AusTender website.

During 2022–23, the CDPP entered into 112 new reportable non-consultancy contracts involving total actual expenditure of \$8.810 million. In addition, 207 ongoing reportable non-consultancy contracts were active during the period, involving total actual expenditure of \$24.526 million.

The following organisations received a share of reportable non-consultancy contract expenditure during the reporting period.

Macquarie Telecom Pty Limited	1,161,113

No contracts of \$100,000 or more (inclusive of GST) were entered into during 2022–23 that did not provide for the Auditor-General to have access to the contractor's premises where appropriate. The CDPP has not published details of prosecution legal counsel expenditure on the basis that to do so would disclose exempt matters under the *Freedom of Information Act 1982*.

### Legal services expenditure

The Legal Services Directions 2017 require agencies to report expenditure on legal services. These directions are not intended to cover the handling of criminal prosecutions and related proceedings (see General Note 4 to the Directions). Therefore, our report relates to our administrative activities only.

Our total expenditure on legal services (excluding the handling of criminal prosecutions and related proceedings) during 2022–23 was \$154,872 (excluding GST). The following table outlines CDPP legal services expenditure and is published in compliance with paragraph 11.1(ba) of the Legal Services Directions 2017.

### Table 10: Legal services expenditure 2022-23

Description	Cost S
Expenditure	
Total (external and internal) expenditure	154,872
Total internal legal services expenditure	0
Total external legal services expenditure	154,872
Summary of external legal services expenditure	
Total value of briefs to Counsel (A)	523
Total value of disbursements (excluding counsel) (B)	220
Total value of professional fees paid (C)	154,129
Total external legal services expenditure (A + B + C)	154,872

Note: Excludes the handling of criminal prosecutions and related proceedings.

### Advertising and market research

The CDPP did not conduct applicable advertising campaigns during the reporting period. Further information on advertising is contained in the reports on Australian Government advertising prepared by the Department of Finance, which are available on the Department of Finance website.

### **Ecological sustainability**

The CDPP is committed to the ongoing efficient and effective management of resources and has initiatives in place that contribute to a more sustainable environment. The organisation embraces technology to minimise energy consumption, reduce the need for paper-based records and limit the environmental impact of staff travel.

APS Net Zero 2030 is the Government's policy for the Australian Public Service to reduce its greenhouse gas emissions to net zero by 2030, and transparently report on its emissions. As part of this, non-corporate and corporate Commonwealth entities are required to report on their operational greenhouse gas emissions.

Table 11 presents greenhouse gas emissions for the entity over the 2022–23 period. Results are presented on the basis of Carbon Dioxide Equivalent emissions. Greenhouse gas emissions reporting has been developed with methodology that is consistent with the Whole-of-Australian Government approach as part of the APS Net Zero 2030 policy. Not all data sources were available at the time of the report and adjustments to baseline data may be required in future reports.

### Table 11: Greenhouse Gas Emissions inventory – location-based approach

Note: CO<sub>2-e</sub> = Carbon Dioxide Equivalent

Since 2020, 100% of the Australian Capital Territory (ACT) electricity comes from renewable energy sources, marking ACT with the highest renewable electricity target within Australia. This has had a direct impact on the carbon emissions associated with the CDPP Canberra office. For more details, visit https://www.climatechoices.act.gov.au/energy.

The electricity emissions reported in Table 11 are calculated using the location-based approach. When applying the market-based method, which accounts for activities such as Greenpower, purchased LGCs and/or being located in the ACT, the total emissions for electricity are as set out in Table 12.

### Freedom of information

Entities subject to the *Freedom of Information Act 1982* (FOI Act) are required to publish information to the public as part of the Information Publication Scheme (IPS). This requirement is set out in Part II of the FOI Act and has replaced the former requirement to publish a section 8 statement in an annual report.

The CDPP's plan showing the information published in accordance with the IPS requirements is available on the website at www.cdpp.gov.au.

# Appendix 4 – Prosecution statistics

The CDPP's core prosecution case data is sourced from available digital solutions where data governance practices ensure the information is accurate, up to date and consistent. Reporting and data analytics capability are continuously enhanced to track progress, report on work delivered and analyse and enhance business decision making.

Additional prosecution statistics can be found at www.cdpp.gov.au.

'Defendants dealt with' includes not only convictions and findings of guilt but also:

- matters resulting in acquittals
- prosecutions that are discontinued in accordance with the *Prosecution Policy of the Commonwealth* based on evidentiary or public interest considerations
- discontinuances as part of a charge negotiation
- when a matter scheduled for trial resolves into a guilty plea
- when there is a hung jury
- a warrant has been issued and the defendant has absconded
- · determinations that a defendant is unfit to be tried
- matters where a charge is issued but is unable to be served.

It does not include:

- matters where the CDPP has provided pre-brief advice to an investigative agency
- brief assessments that do not proceed to prosecution on evidentiary or public interest grounds
- breach proceedings
- matters determined on appeal.

### **Prosecution appeals**

The CDPP appellate practice plays an important role in providing an effective prosecution service. It also contributes to maintaining public respect in the justice system by seeking to remedy sentences that are significantly out of touch with sentencing standards.

The *Prosecution Policy of the Commonwealth* provides that the Director's right to appeal against sentence should be exercised with appropriate restraint. Factors which may be considered when deciding to appeal include whether:

- the sentence is manifestly inadequate
- · the sentence reveals an inconsistency in sentencing standards
- the sentence proceeded based on a material error of law or fact requiring appellate correction
- the sentencing is substantially and unnecessarily inconsistent with other relevant sentences
- an appeal to a Court of Appeal will enable the court to lay down some general principles for the governance and guidance of sentencing courts
- an appeal will enable the court to establish and maintain adequate standards of punishment for crime
- an appeal will ensure, so far as the subject matter permits, uniformity in sentencing
- an appeal will enable an appellate court to correct an error of legal principle.

In addition to the above considerations, the CDPP only institutes appeal proceedings when there are reasonable prospects of success.

In 2022–23, a total of 5 prosecution sentence appeals were decided, and 2 appeals were successful. This represents an outcome of 40% of appeals being upheld.

Description of appeal	Number of appeals		Appeal	Appeal upheld	
	2022–23	2021–22	2022–23	2021–22	
Prosecution sentence appeals in summary prosecutions	0	0	0	0	
Prosecution sentence appeals in a prosecution on indictment	5	7	2	5	

In some cases, the CDPP sentence appeal may not be upheld despite the court finding there has been an error in law or in the application of sentencing principles. In all sentence appeal cases appellate courts have a residual discretion not to intervene and re-sentence. While appellate interventions did not occur in 3 of the appeals brought by the CDPP, the judgments provided useful guidance in relation to sentencing principles and in the exercise of the residual discretion on appeal.

# Appendix 5 – Exercise of the Director's statutory functions and powers

The DPP Act empowers the Director to exercise a range of statutory functions and powers. During the reporting period the Director, or a delegate, exercised the powers and functions outlined below.

### Discontinuance of a prosecution

# Discontinuance following commitment to trial or the filing of an indictment

After a defendant has been committed for trial, the question sometimes arises whether the prosecution should continue. This can arise because of an application by the defendant or on the CDPP's initiative.

The Director's power to discontinue a prosecution is derived from section 9(4) of the DPP Act. A submission made to the Director to discontinue such a matter is known as a 'no bill' application. The Director's power to discontinue is delegated to the Commonwealth Solicitor for Public Prosecutions, practice group leaders and branch heads who make these decisions in certain circumstances.

In 2022–23, a total of 36 prosecutions the CDPP had carriage of were discontinued following commitment for trial or the filing of an indictment because there was either insufficient evidence to proceed or for compelling public interest reasons. Five matters were discontinued for other reasons, for example death of an accused. In addition, one prosecution was discontinued by the Attorney-General pursuant to section 71 of the *Judiciary Act 1903*.

### Discontinuance in the summary jurisdiction

The CDPP also discontinued 134 matters in the summary jurisdiction on either evidentiary or public interest grounds. Nine of these were because of death of an accused.

### Indemnities

The DPP Act empowers the Director to give an undertaking, referred to as an indemnity, to a potential witness in 3 circumstances:

- Section 9(6) authorises the Director to give an indemnity to a potential witness in Commonwealth proceedings that any evidence the person may give, and anything derived from that evidence, will not be used in evidence against the person, other than in proceedings for perjury.
- Section 9(6B) empowers the Director to give an indemnity to a person that any evidence he or she may give in proceedings under state or territory law will not be used in evidence against them in a Commonwealth matter.
- Section 9(6D) empowers the Director to give an indemnity to a person that he or she will not be prosecuted under Commonwealth law in respect of a specified offence.

During the reporting period the Director provided 20 indemnities under section 9(6) and 3 indemnities under section 9(6D).

### **Ex-officio indictments**

Under sections 6(2A)-(2D) of the DPP Act the Director may institute prosecutions on indictment, referred to as *ex-officio* indictments. In certain circumstances the decision to present an *ex-officio* indictment is delegated to the Commonwealth Solicitor for Public Prosecutions, Practice Group Leaders and branch heads.

The powers in section 6(2A)-(2C) are used in circumstances where a defendant consents to a prosecution on indictment without being examined or committed for trial, or where a defendant having been committed on either Commonwealth, state or territory offences, is indicted on different charges from those on which they were committed. Section 6(2D) of the DPP Act provides that in any other case, where the Director considers it appropriate to do so they may institute a prosecution of a person on indictment for an indictable offence against the laws of the Commonwealth, in respect of which the person has not been examined or committed for trial.

During the reporting period the Director or a delegate exercised *ex-officio* powers on 33 occasions.

### Consent to conspiracy proceedings

The Director's consent is required before proceedings for Commonwealth conspiracy offences can commence. During the reporting period the Director consented to the commencement of conspiracy proceedings against 65 defendants in relation to 37 alleged conspiracies.

# Appendix 6 – Corrections to previous annual reports

The CDPP's 2021-22 Annual Report contained minor errors.

Page 5 incorrectly states that the Director is appointed by the Attorney-General, and omitted information regarding the power of the Attorney-General to issue directions under the DPP Act. The correct details are as follows.

### Establishment

The CDPP was established under the *Director of Public Prosecutions Act 1983* (the DPP Act) and began operations on 5 March 1984. The CDPP operates as an independent agency within the Attorney-General's portfolio and is led by the Director, who is appointed by the Governor-General for a term of up to 7 years.

The Attorney-General has power under section 8 of the DPP Act to issue directions or guidelines to the Director. Directions or guidelines must be in writing and tabled in Parliament, and there must be prior consultation between the Attorney-General and the Director.

On 25 March 2022, the Attorney-General issued a direction under section 8(1) of the DPP Act, requiring the Director not to institute criminal proceedings for the commitment for trial of a person for an alleged offence under Division 102 of the *Criminal Code* (Cth), without the written consent of the Attorney-General, where the facts constituting the alleged offence relate to the person's conduct in connection with Hamas.

Table 4 incorrectly referred to 'section 249(1) determinations'. The correct details are provided in the following table.

# Glossary of terms

Term	Definition
Brief / brief of evidence	A collection of witness statements, reports and other materials given to the CDPP by the police or other investigating agency after it has finished its investigation. We use the material contained in the brief of evidence to decide whether a prosecution should take place and, if so, to prosecute the accused.
Conviction	When a person accused of committing a criminal offence is found guilty of that offence and is convicted, and a record of their conviction is recorded on their criminal history.
Criminal Code	The Criminal Code is contained in the Schedule to the <i>Criminal Code Act</i> 1995.
Defended matter	A trial on indictment or a hearing or trial in a summary jurisdiction.
Evidence	Information provided to the court that is used to prove or disprove a fact in issued in court proceedings.
Guilty	To be legally responsible for a criminal offence.
Indictable offence	A serious criminal offence that is usually heard in a higher court before a judge and jury. Less serious indictable offences and summary offences may be heard in a local (magistrates') court.
Matter	A prosecution or a proceeding in a court (a 'case') may be referred to as a 'matter'.
No bill / no further proceedings	Where the decision is made that a case will not proceed further, for example due to insufficient evidence, this may be referred to as a 'no bill'. A prosecution is discontinued when the court is advised of this.
Offender	A person convicted of a criminal offence. Prior to a guilty finding, the person is referred to as an 'alleged offender', 'the defendant' or 'the accused'.
prima facie	A legal term meaning there is some evidence to prove each of the elements of the offence for which the person has been or is intended to be charged.
Prosecution policy of the Commonwealth / the prosecution policy	The <i>Prosecution Policy of the Commonwealth</i> underpins all decisions made by the CDPP throughout the prosecution process and promotes consistency in decision making. It is a public document and applies to all Commonwealth prosecutions.
Sentencing	The phase of a trial where a sentence is handed down by the court.
Sentence	A range of penalties available to be imposed on an offender including imprisonment, community service orders, good behaviour bonds, and fines.
